About LAB42

- A new building is being realized at the moment for information sciences at the UvA on the Science Park.
- Meant for education, research, and companies to come together and join forces.
- Part of the building is dedicated for companies to join this community and work together on technologies for the future in one place.

Mission

In order to push boundaries in solving tomorrow's problems, we create an environment where people can **develop** themselves.

Vision

We stimulate **collaborations** between research, education & industry to share knowledge and nurture innovation.

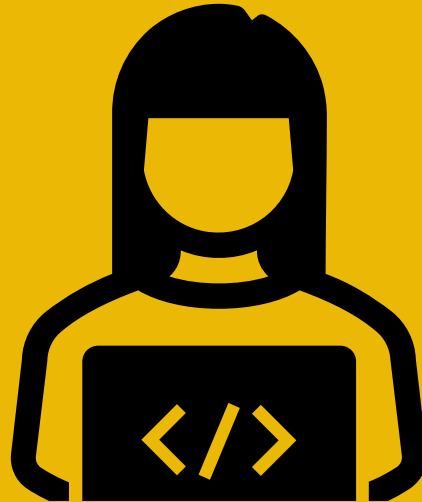

About LAB42

LAB42 is the international **talent development hub** for **digital innovation and AI**.
